DECEMBER DEAL: FREE BSA & OFAC COMMON POLICY MISTAKES REPORT

We've worked with our partners at AffirmX to offer you a complimentary **Top 8 BSA & OFAC Policy Common Mistakes Report**, along with a **15-minute expert consultation** with quick fixes that can be implemented before your next exam! This offer will only be available through **January 15th**.

Don't wait and get your call scheduled today by emailing: info@affirmx.com.

COMING SOON - COMPLYSIGHT360

We're excited to officially announce the release of the first module in **ComplySight360**! This launch has been several years in the making, and we're confident it will be well worth the wait.

ComplySight360 is launching in two phases, beginning with our upgraded **Complaint Management Module**. Trusted by credit unions of all sizes since 2017, this module has been enhanced with expanded reporting, easier complaint logging, improved assignment and tracking, and centralized data to help identify trends and support strong documentation.

Coming in **Q3 2026**, our fully redesigned **Compliance Management System** will move away from traditional grading scales and introduce a clearer, evidence-based approach using yes/no questions. Risk scores will be supported by transparent logic aligned with NCUA risk categories, legal risk, business continuity risk, and financial risk.

We encourage you to compare ComplySight360 to other solutions on the market — we're confident you'll be impressed.

CURI CORNER

THE AFFIRMX DIFFERENCE

We all know that completing compliance reviews across every operational area each year sounds ideal—but between day-to-day responsibilities and competing projects, time is always in short supply.

That's where AffirmX can help. While ComplySight offers powerful self-assessment tools, AffirmX provides full-service compliance support when your schedule is stretched thin. Whether you need an independent audit or assistance reviewing a specific program, such as lending, our team manages the review process from start to finish.

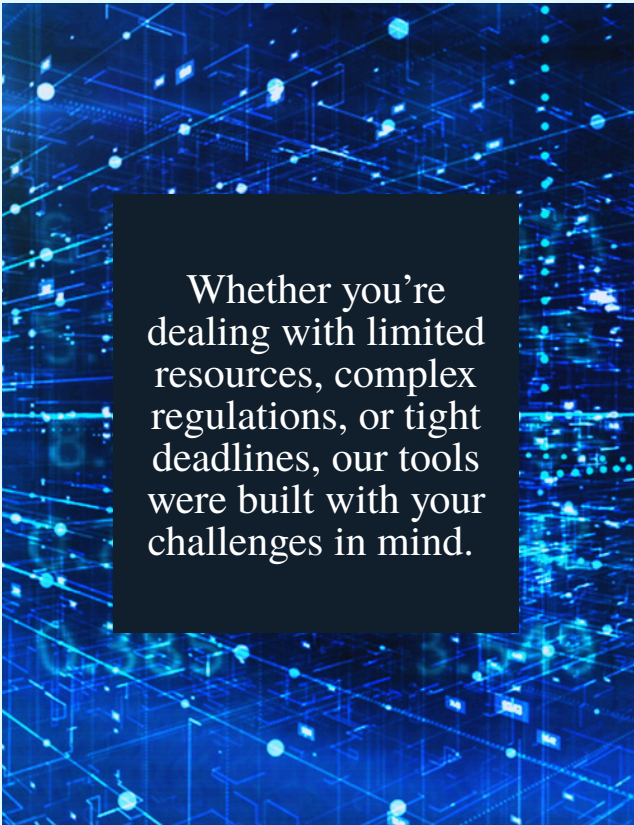

Using secure, cloud-based technology, you simply answer questions and upload documentation while our experts conduct the review. You'll receive a comprehensive report outlining potential action items to help ensure compliance — making life easier for compliance officers and examiners alike.
